

Special Measures for Transport Services Connecting the Airport

(HONG KONG, 22 September 2019, 0900hrs) – In view of the calls for attempts to block traffic to Hong Kong International Airport (HKIA) today, Airport Authority Hong Kong (AA) has activated the Airport Emergency Centre and has been working closely with the airport community and public transport operators to implement special measures to ensure the smooth operations of HKIA and passengers' journeys being unaffected.

All “E” routes buses heading to the airport or AsiaWorld-Expo departing from bus terminuses in the city after 1030hrs will terminate at Tung Chung. City-bound “E” routes bus service starting from the airport or AsiaWorld-Expo will remain normal routings. Passengers travelling to the airport by bus are advised to take the “A” routes and stay tuned to traffic information.

Airport-bound Airport Express trains will only take passengers from Hong Kong Station to the airport and will not stop at the Kowloon, Tsing Yi and AsiaWorld-Expo Stations starting from 0900hrs today until close of service. City-bound Airport Express service will only stop at Hong Kong Station. In-town check-in service at Kowloon Station will be suspended for the whole day.

Car Park 1 of the airport has been closed starting from 0900hrs because of operational considerations.

Passengers are advised to allow sufficient time to travel to the airport. Passengers can also check with their respective airlines, or the airport's website and “HKG My Flight” mobile app for updated flight information.
