

Since the opening of the Guangzhou-Shenzhen-Hong Kong High Speed Rail (HK Section) on 23 Sep 2018, Hong Kong West Kowloon Station has become one of the most remarkable landmarks in Hong Kong because of its unique architecture. Creative artworks are displayed inside the station complex, and there are 3 hectares of public space outside including the Green Plaza and Sky Corridor. People can enjoy the stunning views of the Victoria Harbor by walking along the Sky Corridor to the Sightseeing Deck of the station.

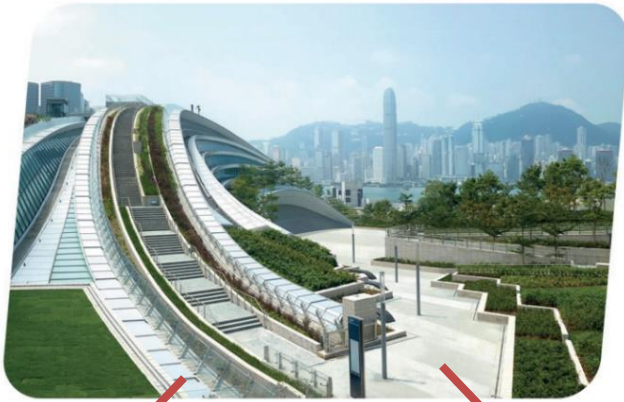

Promoting local tours has become an important initiative for the travel industry under the pandemic situation. In order to support the travel industry by adding more local elements, MTR invites local tour operators to include Hong Kong West Kowloon Station as a brand-new scenic spot in the itinerary during suspension of HSR service. The architecture and artworks of the station (please see Annex 1 for details) bring local tourists an extraordinary experience of “In-depth Tour”.
